Safety Products

Fire Extinguisher

Fire extinguishers are designed for putting out small fires. Ratings are based on UL 711 testing, which uses the following classes: Class A: Wood and paper fires. Class B: Flammable liquid fires. Class C: Can be used in the presence of charged electrical circuits. Weights noted are the approximate amount of extinguishing agent with which charged extinguishers are supplied. Dry chemicals (sodium bicarbonate and multipurpose phosphate are used) leave a powdery residue that can damage delicate instruments; CO₂ leaves no residue; water conducts electricity and can freeze.

Dry chemical for class A:B:C type fires (multipurpose phosphate).

Rating is 2A:10B:C with a 5-lb charge. Has stored pressure and is refillable. Vehicle mounting bracket included.
